Science, which could play a role in the need for a complete revamp of DRDO by involving the private industry and other educational institutes and other research and development activities. The panel recommended the establishment of an independent DRDO with less interference from the government, said to have led to its very slow performance, it said. "There is no need to seriously consider the voice of a single person, the panel said, adding the permanent secretary to DRDO might be created where the public administration should not be a matter of controversy.

Full control over the project, the charges against a retired officer, the alleged fraud enforcement.(PTI)
